CAPTURE is a voluntary camera registry website that records the locations of security cameras in the Parkland Detachment area.

The purpose of CAPTURE is to build a registry of private security camera locations to assist in police investigations.

Often, security cameras capture evidence that can be used to solve a crime. If an incident happens, Parkland Detachment can view the list of camera locations, and contact the registered camera owners.

By providing the Parkland Detachment with the location of your security cameras, you could be helping to shorten the required time for investigations and providing key information to ensure people responsible for crime are held responsible.

About CAPTURE

- Registering your camera is voluntary
- Multiple cameras can be registered
- Joining the registry does not mean you are obligated to give access to or share the footage – by registering you are only providing the location of your camera
- The information is not shared publicly – it is only available to the Parkland Detachment
- You can withdraw registration at any time
- You can have different locations with one account

Help police investigate crimes and keep your community safe.

The registry is voluntary and secure. Sign up and help protect your property, your family and your community.
